

AquaRay[®]

ABOVE-GROUND SUCTION CLEANER

Flapper Disc Cleaner

The AquaRay goes the distance to suck dirt away.

Hayward's AquaRay is an affordable, automatic suction cleaner with only one moving part for simple reliability. Backed by the most trusted name in swimming pool equipment, AquaRay scoops up dirt and debris from three separate intake ports. Its gliding motion makes it an ideal choice for cleaning above-ground pools and is easily installed, without tools, in less than 10 minutes.

AquaRay® has a swivel foot pad that won't get stuck in corners. Its powerful suction technology picks up sand, leaves and twigs.

Features and Benefits

Easy Installation

Installs in less than ten minutes, no tools required.

Uses Existing Filtration System

No extra, energy-consuming booster pump required.

Multiple Input Ports

Meets the demands of the toughest conditions.

Swivel Foot Pad

Minimizes friction for gentle movement.

Automatic Regulator Valve

Sets the ideal suction, assuring optimal cleaning.

Hose Connection

Provides attachment for 32 feet of hose to adequately cover up to a 24-foot-round pool.

Optional leaf basket and skimmer plate available. They're ideal for high-foliage environments. Leaves and other debris are trapped easily and the skimmer cleans the surface in just minutes.

AquaRay Data
