

AquaRite® 100
»»» Salt Chlorinator System

GIVE ANY POOL THE BEST IN
NATURAL SANITIZATION & SOFTNESS

EXPERT LINE

✓ PREMIUM PRODUCTS

✓ LONGER WARRANTIES

✓ ONLY FROM POOL PROS

LUXURIOUS WATER DOESN'T HAVE TO BREAK THE BANK.

AquaRite® 100 salt chlorination systems offer nearly all of the same incredible benefits as the rest of the best-selling AquaRite family—ultra-soft water, time-saving convenience and simple installation—all at an accessible price. AquaRite 100 naturally converts dissolved salt into a virtually endless supply of chlorine, providing automatic, consistent sanitization that won't irritate eyes, dry out skin or cause fabrics to fade. It also cuts annual chlorine costs by 50% and can produce up to 20% more chlorine over its lifetime than other comparable systems on the market.

Weatherproof control unit ensures optimal performance in all conditions

Advanced dispensing capability operates at flow rates as low as 20-25 GPM

LED lights indicate current system operation status

Intuitive control panel located behind flip-down door

Wide-ranging salt production levels are capable of operating between 1500 and 4500 PPM

Cell cap provides an insulated cable connection to control box

Nut assembly and versatile piping allow for easy installation in existing pools

Salt cell produces approximately 450 lbs. of pure available chlorine—20% more than other comparable systems

Clear vessel and replaceable cartridge provide chlorine production visibility, hassle-free cleaning and simple replacement

COMMON SALT LEVELS

Hayward® salt pools maintain extremely low salt concentrations—generally below the taste level of most people—for ultimate swimming comfort.

OCEAN WATER
35,000 PPM

HUMAN TEARS
9,000 PPM

HAYWARD SALT POOLS
3,000 PPM

PPM = parts per million

SPECIFICATIONS

PART NUMBER	DESCRIPTION	TOTAL POUNDS OF FREE CHLORINE PRODUCED	WARRANTY
AQR100	AquaRite 100 for in-ground pools up to 30,000 gallons, dual voltage wiring	450 lbs.*	3 years
